

REMARKS

This Amendment is submitted supplementary to the previous Amendment and in connection with the interview with the Examiner.

During the interview it was determined that it would be advisable to amend the claims to more clearly define that the next decision point is different from the final destination point of the navigation. In view of this, the claims have been amended correspondingly.

It is believed that the claims as amended clearly and patentably distinguish the present invention from the prior art applied against the original claims.

Reconsideration and allowance of the present application is most respectfully requested.

Should the Examiner require or consider it advisable that the specification, claims and/or drawings be further amended or corrected in formal respects in order to place this case in condition for final allowance, then it is respectfully requested that such amendments or corrections be

carried out by Examiner's Amendment, and the case be passed to issue. Alternatively, should the Examiner feel that a personal discussion might be helpful in advancing this case to allowance, he is invited to telephone the undersigned (at 631-549-4700).

Respectfully submitted,

Michael J. Striker  
Attorney for Applicants
